### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

The amendment of 5/14/03 has been entered and considered. The IDS of 3/26/03 has been entered and considered. An initialed copy of the form PTO-1449 is included with this action.

Claims 3, 4, 11, 15 and 18 are pending in this application. All other claims have been canceled. Claim 18 is newly added.

Any rejection not repeated below has been withdrawn in view of Applicant's arguments and/or amendments.

#### *Rejections maintained*

Claims 3, 4, 11, 15 and 18 remain rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a written description rejection.

The specification discloses SEQ ID NO: 302 and 303 which corresponds to the specific splice variants of the gene coding for the Breast Cancer specific antigen B11Ag1 also referred to in the specification as B305D. Claims limited to the *particular disclosed sequences* related to this antigen, including SEQ ID NO: 302 and 303 would meet the written description provisions of 35 USC 112, first paragraph. However, claim 18 (and dependent claims thereon) uses the open claim language "comprising" and therefore is construed to encompass genomic DNA comprising introns, exons, enhancers, promoters, etc that are not disclosed in the application. None of these sequences meet the written description provision of 35 USC 112, first paragraph. The specification provides insufficient written description to support the genus encompassed by the claim.

Therefore, only the specifically disclosed sequences related to SEQ ID NO: 302 and 303, and related sequences which encode the disclosed antigen B11Ag1 (through codon degeneracy) but not the full breadth of the claim meets the written description provision of 35 USC 112, first paragraph. The species specifically disclosed are not representative of the genus because the genus is highly variant. Applicant is reminded that Vas-Cath makes clear that the written

description provision of 35 USC 112 is severable from its enablement provision. (See page 1115.)

*New Grounds of Rejection*

*Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 15 depends from newly canceled claim 8. It would appear this claim may have been intended to depend from new claim 18. As such, the metes and bounds of the claim are indefinite.

*Conclusion*

No claim is allowed.

The claims appear to be free of the prior art.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
